

CAFE ORDERING INSTRUCTIONS

Want to place an order from your desk and pick it up in the cafe? We have you covered!

Go to <https://orders.cake.net/11275092/> (Hunter Lane), <https://orders.cake.net/11275073> (Valley Green) or click the appropriate link at candjcatering.com/cj-cafe. The page will load to the online ordering screen.

Make sure the selected menu is either BREAKFAST or LUNCH (upper right) along with your appropriate location (upper left). For online ordering with made to order items, DO NOT SELECT THE MARKET MENU. The market menu is reserved for ordering at the self-serve market kiosk at your market location.

BREAKFAST CAN BE ORDERED
FROM 7:00AM TO 10:00AM

LUNCH CAN BE ORDERED
FROM 10:30AM TO 1:00PM

Once you are on the correct menu page, scroll to find the item you would like to order and click on the plus sign next to it. A second screen will appear with customization options. Make your customizations, hit the + button and it will be added to your cart. Once you are finished adding items to your cart, make sure to select the PICK UP button under the order type and then proceed to checkout.

After you place your first order, you can set up an account and save your credit card to the account so you are ready for next time! Setting up an account is also convenient if you have a favorite go-to meal as you can just go into order history and re-order it in the future.

Once you place your order, the cafe will receive and accept it. Once your order is accepted, you will receive an email notification with the time that your order will be ready. When you come to the cafe, ask the cashier for your online order made fresh.
